

rear
sash
(behind)

REAR RECEPTION
(ground floor)
FFL ± 0 (GF) ceiling 3.28 m

BASEMENT
(rear room)
ceiling 2.76 m

Lower-basement
double doors
(visible in section)

1. Cut: N-S through centre of proposed spiral staircase, viewer looking WEST.
2. Rear-reception room (south) and basement room shown to the right of section.
3. Rear boundary wall (north) shown to the left.
4. Datums:
 - Courtyard slab = ± 0
 - Basement floor = -2760
 - Ground floor FFL = $+2820$
 - Kitchen ceiling = $+5270$
 - Reception ceiling = $+6100$
5. Spiral staircase: 14 treads $\times$ 201 mm rise = 2814 mm total $\rightarrow$ meets new doorway at GF FFL.
6. Central pole 3300 mm — extends above landing as terminating post / handrail.
7. Rear-plate fixed to courtyard slab; top fixed to side wall + propped from pole. Final detail by structural engineer.
8. The side wall (and the new doorway through it) sits BEHIND the section plane — shown dashed.
